

ATTENTION!!

The Seeley Lake Sewer District wants to setup a meeting with you to discuss the location of your existing sewer service, septic tank location, and review options to install your new sewer service line. Our Engineer, Great West Engineering will be on-site to complete this field work. If you own one or more parcel(s), in Phase 2 (as shown below), each parcel will need to be scheduled.

Please go to seeleysewer.org and click on the link to schedule a time or contact Great West Engineering via phone (406.449.8627 ask for Jill) or email (jboettcher@greatwesteng.com) to schedule a time during one of the following weeks to meet at your property.

**November 11th – November 15th &
November 18th – November 22nd**

If you do not sign-up online or contact Great West Engineering, an attempt will be made to contact you. Please schedule as soon as possible. We appreciate your time!

Seeley Lake Sewer District Phase 2 Parcels
